Brady Bucks

What is Brady Bucks

Brady Bucks is a BEP20 token that was made to honor the greatest NFL quarterback of all time, Tom Brady. Every touchdown Tom Brady scores, the Brady Bucks' team will manually buy one hundred million brady bucks and burn them. Fans and Crypto fanatics who purchase and hold Brady Bucks will receive BUSD as rewards. BUSD is a stable Binance coin that will always hold its value of one dollar per coin. To make Brady Bucks even more appealing we added auto liquidity on every transaction to make sure the exchange never runs low on Brady Bucks and to increase the price floor of Brady Bucks on every transaction. What sets Brady Bucks apart from other BEP20 tokens is the auto buy back system. The Brady Bucks smart contract will receive a small portion of BNB on every transaction. The BNB received by the smart contract can only be used to purchase Brady Bucks from the exchange. These Brady Bucks are locked away in the smart contract and can never be sold, thus raising the price floor and the rarity of Brady Bucks. Brady Bucks has also implemented an anti-dumping mechanism that will not allow any holder to sell more than 0.2% of Brady Bucks at one time. This anti dump mechanism discourages those who just want a pump and dump crypto. Brady Bucks strives to be the Tom Brady of the Crypto world. G.O.A.T

Brady Bucks

Tokenomics

Brady Bucks has a total supply of 1,000,000,000,000,000 BB. 80% will be used for pre-sale and initial liquidity. 15% of tokens are reserved for future burn events (SUPER BOWL), 5% will be given the team and initial sponsors.

- 8% of every buy/sell is redistributed to all Brady Bucks holders in BUSD.
- 2% of every transaction is auto transferred into the Liquidity Pool for the exchange to create a stable price floor.
- 3% of every transaction is transferred into Smart Contract to buy back Brady Bucks which are locked away forever.
- 1% will go to early marketing to help promoted Brady Bucks, the one percent marketing fee will change to zero after a 100mil market cap is achieved.
